INTRODUCTORY SESSION

introductory session is where the friends of the pack get to know one another before embarking on their collective experience. whether they meet for the first time or are already acquainted, they get to see one another and themselves in another light. as the aim of the friendship pack is to experiment with collaboration and interaction, the concepts of self and community will be brought into question. through activities of fun and pleasure, we want to inquire our senses and definitions of self and community.

self is an interesting concept, that has been contemplated on by many. we all have differing interpretations, definitions and descriptions regarding our selves. while some of us stick to more precise and well-defined explanations, others feel comfortable with fluid and open-ended approaches to self. in the introductory session, we want to question this notion from the perspectives of fun and pleasure. we want you to share the things you enjoy, the things that are dear to you heart, soul and mind with the friends of your pack.

just as our 'selves' are fluid entities under the constant influence of outer and inner dynamics, our roles within a community and the ways we interact and collaborate with others are ever-changing. thus, building a community is a learning process that is in continuous transformation. we believe the ways we interact with each other and with the environment are not sustainable and are demanding of change. we approach this experience as a platform that allows for alternative ways of existing and working together to be experimented with.

as we want each pack to be autonomous and collective initiatives, the form and shape of the introductory session depends on the preferences of the pack. we prepared some initial questions that we believe will open up conversation and lead to sharing. the bonding experience the pack will entertain will be defined by the preference and the collective creativity of the individuals.

we also believe in the importance of self-determined and self-sustained ground rules when creating collective experiences. to ensure everyone's feeling safe, heard and seen, we would like each pack to discourse on the mainframe they would like to operate in.

as the last step of the introductory session, we would like the packs to carry out a simple exercise. each individual is expected to create an avatar/meme card of themselves, pondering upon the ways they believe they will contribute to and learn from the experience.

tanışma toplantısı, paketindeki dostlarla kolektif deneyimine başlamadan önce tanışmanı sağlar. ilk kez karşılaştığın ya da önceden tanıdığın kişileri yeni bir bakış açısıyla görmen için bir fırsattır. dostluk paketinin amacı benlik ve komünite kavramlarını “eğlence ve keyif” aktiviteleriyle sorgulamaktır.

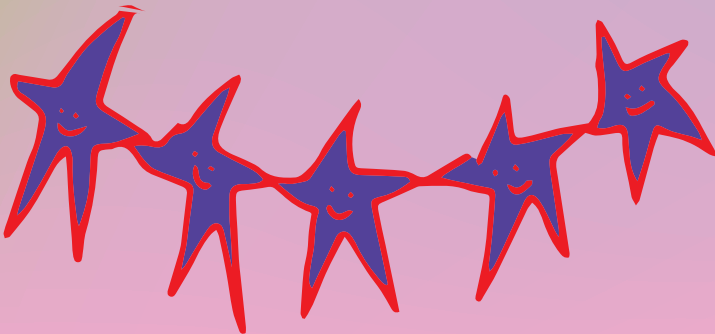

benlik üzerinde birçok kez düşünülmüş, her birey tarafından kendi deneyimleri sonucu farklı biçimlerde yorumlanmış ve tanımlanmış ilginç bir kavramdır. bazılarımız daha keskin ve net açıklamalara başvururken, bazılarımız da daha akışkan ve açık uçlu yaklaşımlarla benliği tanımlar. tanışma toplantısında benlik ve komünite sorgulamalarını eğlence ve keyif perspektiflerinden yapmak istiyoruz. bu süreç boyunca sizden keyif aldığınız ve kalbinizi attıran şeyleri paketinizdeki dostlarınızla paylaşmanızı istiyoruz.

komünite oluşturmak devamlı değişim içeren bir öğrenim sürecidir. bir komünitedeki rollerimiz, kurduğumuz etkileşim ve işbirliği şekillerimiz tıpkı benliklerimiz gibi akışkandır. birbirimizle ve çevreyle etkileşim biçimimizin sürdürebilir olmadığını ve değişime ihtiyaç duyduğunu düşünüyoruz. bu deneyimdeki amacımız alternatif var olma ve ortak çalışmaya alan sağlamaktır.

her paketin otonom ve kolektif inisiyatifler olmasını istediğimiz için tanışma toplantısının hangi formda olacağını paketteki dostların kararlarına bırakıyoruz. paketinize sohbet konuları açması ve paylaşım için yol göstermesi için sorular hazırladık. nasıl bir kaynaşma serüveni seçeceğiniz ise sizin kararlarınıza ve yaratıcılığınıza kalmış.

süreç boyunca herkesin güvende hissetmesi ve düşüncelerinin göz ardı edilmemesi için ana kurallar belirlenmesinin gerekliliğine inanıyoruz. her paketten tanışma toplantısında içinde bulunmak istediği çerçevenin sınırlarını tartışmasını ve kendi kurallarını oluşturmasını istiyoruz.

tanışma toplantısının son basamağı olarak, paketlerin küçük bir egzersiz yapmasını istiyoruz. her dostun sürece nasıl katkı sağlayacaklarını anlatan bir avatar kartı hazırlamasını bekliyoruz.

GROUND RULES

1. the requirements of each pack in terms of time, money, transportation should be suitable for everyone. we would suggest determining limits beforehand, so the duos can plan accordingly.

2. the planning of the packs require time and effort from the duos. the friends should notify in advance if they cannot attend a pack.

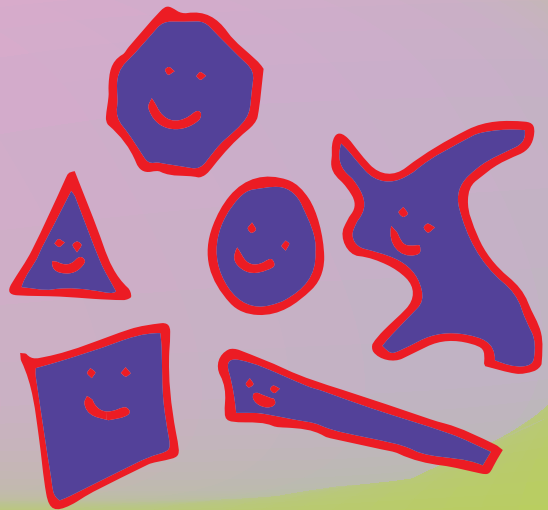

3. if there are any other special requirements such as dress code, or any other necessary items, they should be communicated with the friends timely.

-what are some ground rules that your pack finds important to establish?-

4. ...

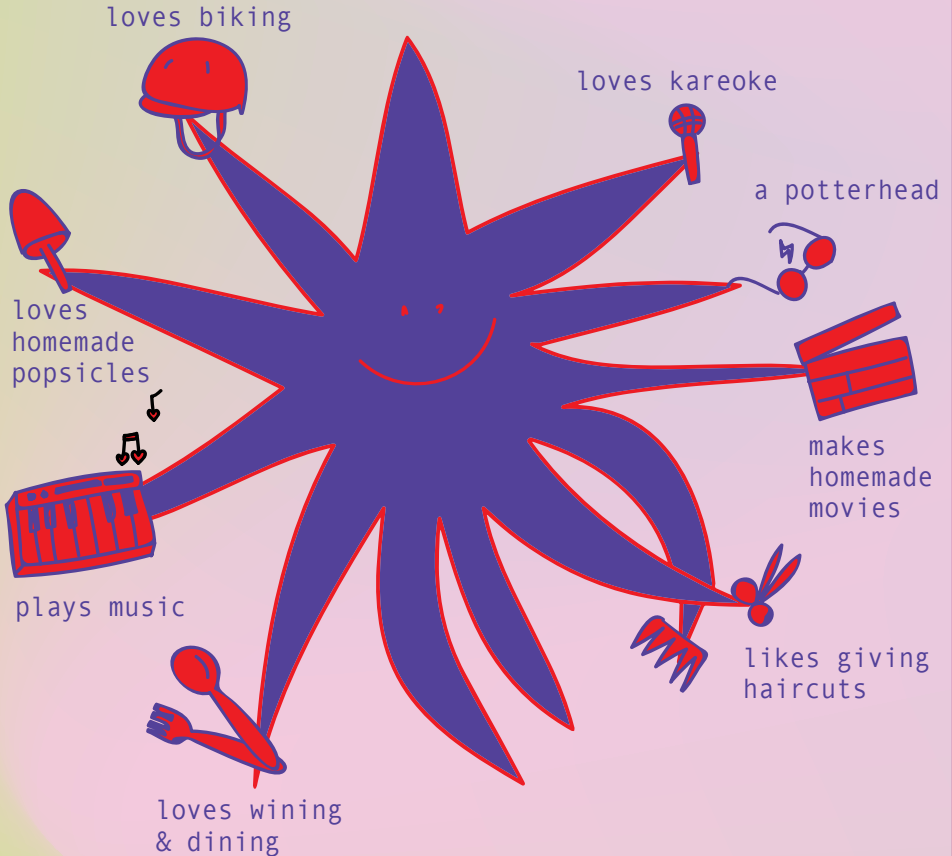

- _what are your hobbies?
- _do you like physical activities?
- _how is your relationship with technology/ digital world/ social media?
- _how is your relationship with animals?
- _how do you define "chic" based on your aesthetic?
- _what is your favorite meal/food?
- _what are your expectations from 2020?
- _how would your buddies describe you? do you agree?
- _what is your favorite game?
- _are you stubborn?
- _how is your relationship with music? do you make your own playlists?
- _how is your relationship with astrology?

- _how would you describe your weaknesses and strengths?

DEFINE YOURSELF AS A TOOL

throughout the friendship pack experience, individuals will embody interchanging roles. responsibilities will be shared along with fun and pleasure. friendship packs aim to be horizontally structured, meaning every step of the process is co-planned, co-organized, and co-created and the roles switch constantly. individuals will experiment with organizing and planning, and also experience the packs pre-planned by their peers. in this exercise we want you to imagine yourself as a tool for the community. what can you provide? what would you like to share with others? or in simpler terms, who are you? what defines you? what are your hobbies, your interests, your quirks, your strong suits?

dostluk paketi sürecinde bireyler grup içinde farklı rolleri deneyimler. yatay yapılanmayı hedefleyen bu süreçte sorumluluk da eğlence ve keyif gibi paylaşılır. her aşama ortak bir planlama ve üretimin sonucudur ve bu süreçte roller sürekli değişir. bir hafta organize etme ve planlama sorumluluğunu alan dostlar, diğer haftalarda kendileri için planlanmış paketleri deneyimler. bu basit alıştırmada dostlardan beklentimiz kendilerini toplum/komünite için birer araç olarak hayal etmeleri ve sunabilecekleri, paylaşmak isteyecekleri üzerine düşünmeleri. ya da daha basit bir şekilde ifade etmek istersek kim olduğumuz, kendilerini nasıl ve neyle tanımladığımız üzerine düşünmek istiyoruz. hobilerimiz, ilgi alanlarımız, güçlü yanlarımız, bizi farklı kılan yanlarımız.

HOW NASIL
"I AM A TOOL" = "BIR ARACIM"

now it is your turn, make a meme out of yourself!

time for the lottery!

*to begin, tear the page below apart! cut it along the lines, fold the pieces of paper, mix the numbers and let each friend draw a number from the bunch!
(if you are 4 people, only use the numbers until 4)*

based on the number you draw, you are paired up with your duo. for instance if you have drawn the number 1 your duo is the friend who has the number 2.

now mix the pieces of paper that have the weeks written on them and let each draw one from the bunch!

(again if you are 4 people, only use the 1st week and the 2nd week)

now that you have set the duos and their arrangement, discuss with the pack to determine dates that are suitable for everyone.

once the dates are set, note them down on the next page!

we would like every duo to set up a day for an interview with us as well as the day for the pack. please contact us to confirm the date you want to conduct your duo interview on.

kura zamanı!

başlamak için sayfayı belirtilen yerlerden kes, katla ve karıştır. sırayla her dost bir sayı seçsin ve çektiği sayıya göre, herkes ekürisiyle eşlessin! örneğin 1 ve 2 numaralarını çekenler bir eküri grubuyken 3 ve 4'ü çekenler bir diğer eküri grubunu oluşturur!

ikinci aşamada hafta belirten kağıtları karıştır ve her eküri haftasını kuradan çeksın!

we believe in the power of chance! adding an element of surprise, unpredictability to the process enhances the fun!

	duo/ ekuriler	date for the pack/ paket tarihi	date for the virtual interview/ roportaj tarihi
